## ***Self Storage Tips***

**Appliances:** Please make sure all appliances are clean and dry. Dampness and food particles will invite pests. Refrigerators and freezers can be stored with doors slightly ajar.

**Furniture:** A pallet, cardboard mat, or plastic sheeting can be placed on the floor. Then sofas and mattresses can be stored on their end. Dresser tops can be used for stacking cartons. Keep upholstery off the floor. A light cotton or plastic cover can be placed on your furniture to keep dust away.

**Metal Items:** Bicycles and metal tools can be wiped with a cloth containing machine oil to prevent rusting.

**Glass Items:** Glass items are better protected if wrapped in packing materials, even newspaper will help protect. Pack carefully and do not place other boxes or containers on top.

**Cloth Items:** Cloth items and clothing are best stored in a well-sealed plastic tub or placed on hangers and hung in a wardrobe box.

**Paper Items:** Books should be packed flat. Box or containers with books should not be placed directly on a concrete floor. Best to use a pallet, or store on top of larger appliances, dressers, tables, etc.

**Other Items:** Mirrors, screens, or other large, flat items should be stored on edge and covered with a dust protector.

**Items Prohibited:** Do not place live animals, perishables, liquids, explosives, flammable liquids, fuels or toxic materials. State laws prohibit these items being stored.

**Insurance:** Items stored in our units are not insured. Please check with your insurance carrier to determine what your insurance needs are regarding a storage unit.

Pack your belongings carefully and stack well to minimize the space you need. If there are items you will need frequently place them near the door. Store more valuable items at the back of your unit. Place a good quality lock on your unit door.

Climate controlled units are not provided at this time. Keep this in mind when storing your belongings.

***59 Self Storage appreciates your patronage. Please feel free to contact us at 424-0589 if you have any questions or concerns.***
